

Invitation to the 3. GOR Working Group Meeting

Game Theory & Behavioral Management Science

Dear colleagues!

We kindly invite you to the third working group meeting taking place **31st of January to 1st of February 2023 at the University of Cologne.**

The workshop starts Tuesday after lunch and ends Wednesday afternoon. The working group aims at fostering collaboration and state-of-the-art research at the interface of behavioral management science and behavioral & game theory. Targeted research fields include management, economics, computer science, mathematics and other related fields considering game-theoretical approaches. The relevant methodology incorporates cooperative and non-cooperative game theory as well as experiments and field studies.

Registration: To register, please contact Jeffrey Starck (jeffrey.starck@uni-koeln.de) by **December 20th 2022**. If you would like to present your work, please send the title and the abstract along with the registration. There is no participation fee for GOR members, speakers (incl. lightning talks), and members of the hosting institution. All other participants will be charged 100 € which is equivalent to the annual membership fee of the GOR. Please indicate in your registration if you are GOR member.

Further Information and a detailed schedule will follow at the beginning of January.

Kind regards,

Nicolas Fugger & Jeffrey Starck

PS: Please feel free to share this invitation with interested colleagues!
